Information for use

NAPLAN Reading Exemplars

Third Party Materials – information for use

In relation to all NAPLAN tests online and on paper, and the NAPLAN answers published on the ACARA website, ACARA owns:

- all the NAPLAN test questions and exemplar items
- some of the images (photographs and illustrations) in the NAPLAN tests and exemplar items
- some of the Reading stimulus texts
- all of the NAPLAN answers.

Some images (photographs and illustrations) and some texts included in the NAPLAN tests and exemplar items are owned by third parties, are in copyright and are licensed to ACARA.

NAPLAN exemplar items are available through the Student and School Summary Report (SSSR). Exemplars are indicative of the curriculum content and skill assessed and the relative difficulty of the original items they exemplify. Some exemplars contain Third Party Materials that are licensed for educational use in connection with NAPLAN. Restrictions on the use of Third Party Materials are outlined in Table 1 below. Items that contain Third Party Materials are listed by the Online National Assessment Platform item ID in Table 2.

If you wish to copy or communicate the Exemplar Items, you should ensure that you do so in accordance with:

- the Statutory Licence created by section 113P of the Copyright Act 1968 (Statutory Licence);
- the restrictions of use below.

The Statutory Licence and restrictions of use should also be referred to when you wish to edit images, for example by placing a speech balloon over an image.

In specific circumstances, legal advice on the applicability of the Statutory Licence and the NAPLAN Test Administration Protocols should be sought.

Further, the National Copyright Unit (NCU) (which is the specialist copyright team responsible for copyright policy and administration for Australian schools and TAFE) can also assist in providing you with advice in relation to the Statutory Licence. The NCU is a specialised unit that provides copyright assistance and advice to all Australian government and non-government schools. If you require further information about how Administering Bodies or Schools can use NAPLAN tests in reliance on the Statutory Licence, we recommend you contact NCU at smartcopying@det.nsw.edu.au or (02) 7814 3855. To confirm whether a particular school is covered by the Statutory Licence, we recommend you contact the [local copyright representative](#) listed on the Smartcopying website.

Table 1 Restrictions on the use of NAPLAN Exemplar Items

Restrictions on the use of NAPLAN Exemplar Items	
1.	Exemplar Items are not to be publicly released at any time.
2.	Exemplar Items can be uploaded to a website, intranet site or equivalent media that is password-protected and used only for educational purposes. Paragraphs 3 to 7 below set out further restrictions that apply Third Party Materials contained in the Exemplar Items.
Third party restrictions	
3.	Third Party Materials can only be used in post-test materials, namely student and teacher support and teaching materials (including, without limitation, school classroom testing) in connection with the NAP.
4.	Any images, vectors and clips can only be edited, modified and adapted by adding annotations such as speech balloons besides or over such materials to provide commentary to teachers or students.
5.	Where such teacher support materials are made available in digital form, any downloads can only be from a password-protected platform.
6.	You cannot sub-license rights in Third Party Materials.
7.	No or very limited moral rights consent has been obtained from the creator of the Third Party Materials, and accordingly: a. You must attribute the creator of the materials using exactly the same words as set out in Table 2 below; b. You must be careful that any editing, adapting or modifying of the copyright material does not prejudice the creator's honour or reputation ("derogatory treatment"); and c. If you change the copyright material, you must note what has been changed (to avoid false attribution).
